

ASV Scan

Certified PCI DSS Vulnerability Scanning

What Is It & Why Do You Need It?

The PCI DSS (Payment Card Industry Data Security Standard) 11.3.2 requires businesses that process card payments to conduct quarterly external vulnerability scans using an **Approved Scanning Vendor (ASV)**. TPx provides certified ASV scanning services to help you meet this requirement and stay ahead of evolving threats.

Failing To Meet PCI DSS Compliance Can Result In:

Fines & penalties for non-compliance

Risk of payment fraud & data breaches

Loss of trust from customers & partners

Key Benefits

Benefit	What It Means for You
Helps ensure PCI DSS Compliance	Meets PCI DSS 11.3.2 external scanning requirements.
Proactive Risk & Vulnerability Reduction	Identifies and fixes external security gaps before attackers do.
Informed Decision-Making	Gain expert guidance tailored to your unique security needs.
Optimized IT & Resource Allocation	Align security strategies with business and operational goals.
Quarterly Scans & Compliance Tracking	Stay audit-ready with scheduled scans and compliance reports.
Tailored Security Insights	Helps prioritize security investments where they matter most.

What's Included

- Certified external (internet-facing) vulnerability scanning
- Comprehensive assessment of POS systems, accounting software, & data storage solutions
- Quarterly external vulnerability scans for PCI DSS 11.3.2 compliance
- Detailed reports with security findings & remediation steps
- Guidance on aligning security improvements with business objectives

How It Works

1 Automated External Scan:

- Scans external IPs, public-facing systems, and applications for vulnerabilities.
- Detects outdated software, open ports, & misconfigurations that pose security risks.

2 Compliance Verification & Reporting:

- Confirms compliance with PCI DSS 11.3.2 external scanning standards.
- Provides detailed reports with prioritized security findings & remediation steps.

3 Strategic Risk Insights & Mitigation:

- Helps IT teams make informed decisions based on risk severity.
- Offers guidance on aligning security investments with business goals.

Ongoing PCI Compliance Support: TPx helps businesses track risk trends, security posture improvements, and future compliance needs.

Why TPx?

Approved Scanning Vendor

Our scans meet PCI DSS external vulnerability scanning requirements.

Advanced Security Expertise

Backed by industry best practices and compliance frameworks.

Enterprise-Grade Protection for SMBs

Scalable solutions for businesses of all sizes.

Comprehensive, Easy-to-Understand Reports

We don't just give you data—we give you clear remediation steps.

Continuous Monitoring & Compliance Support

Stay ahead of requirements without last-minute audits.

Comply with PCI DSS & Strengthen Your Security Posture.
